

- Red:** Bleed area: 3.75" x 2.25" (0.125" added to all 4 corners beyond the trimmed size). Extend your design all the way to the bleed area to avoid white edges after it is trimmed to final size.
- Black:** Trimmed size: 3.5" x 2" (Final Size)
- Blue:** Safe zone. Keep all texts and images within this area. It will keep them from getting too close to the edge when cutting (0.125" away from trimming area).
